LANGUAGES

English: B2

Spanish: A2 level

SKILLS

Programming: Python, Java, Bash,
JavaScript, C, SQL, R

Web Development: HTML, CSS,
JavaScript

Data Analysis: R, RStudio

Cybersecurity: Vulnerability analysis,
Security best practices

Databases: MariaDB, PhpMyAdmin

Tools: Git, Visual Studio Code,
Zotero, PhpMyAdmin, MariaDB,
STM32CubeIDE, Wireshark

CERTIFICATIONS

2026: TOEIC B2 (920)

2026: Learning AI through
Visualization (Columbia University)

2025: CLES B1 English Certification

2025: CNIL Certification (French
Data Protection Authority)

2024: SecNumAcademy Certification
– Overview of IT Security,
Authentication Security, Internet &
Mobility

2022: Online PIX Training

INTERESTS

Sports: Tennis, hiking, boxing

Hobbies: Passionate about cinema,
video games (analysis and creation)

PROFILE

First-year postgraduate student in Computer Engineering at [ESIROI](#) (The Reunion Island and Indian Ocean Engineering School), France. Passionate about software development, cybersecurity, and emerging technologies. Experienced in academic projects and national competitions, I am eager to apply my technical expertise in a dynamic and challenging professional environment.

COMPETITIONS & ACHIEVEMENTS

Participation in “Le HACK 2025”, one of the largest cybersecurity events in Paris, France

Presentation at the “AI Ethics and Security Morning” conference organized by the Indian Ocean Cybersecurity Observatory (OCOI) for professionals in Réunion, France (2025)

DataCup Challenge 2024 (in partnership with ATMO Réunion): 2nd place in regional ranking (team competition)

Nuit de l'Info 2024 – Ubisoft Bordeaux Challenge: 1st place in the national ranking

EDUCATION

- First-year postgraduate Degree in Computer Engineering [Curent-2026](#)
– ESIROI
- Final Year of Undergraduate Degree in Computer Engineering [2025](#)
– ESIROI
- 2nd Year of Bachelor's Degree in Computer Science [2023](#)
– University of La Réunion
- High School Diploma in Mathematics & Computer Science [2022](#)
– Lycée Marie Curie, Sainte-Anne, Reunion, France

ACADEMIC AND PROFESSIONAL PROJECTS

- Main Project – ESIROI first-year postgraduate:** Built and operated a Security Operations Center (SOC) for monitoring and incident detection
- Infrastructure Monitoring Project:** Supervision of a critical infrastructure using Grafana, focusing on system metrics and business-level data monitoring
- OCOI (Indian Ocean Cybersecurity Observatory) 2-month Internship:** Development of digital tools, conference presentation and participation in cybersecurity events
- Big Data Project:** Design and architecture of a database for a client
- Data Mining & Big Data Project:** Logistic regression on datasets, large-scale data analysis and processing, visualization of results
